Examiner's Amendment/Reasons for Allowance

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

In the Claims

Claims 1 and 12 after last word, delete period and add "for processing fuzzy inferences."

Authorization for this examiner's amendment was given in a telephone interview with Robert lannucci on November 8, 2004.

Reasons for Allowance

- 2. Claims 1-31 are allowed.
- 3. The following is an examiner's statement of reasons for allowance:

The cited prior art taken alone or in combination fails to teach the claims invention of controlling the operation of a computer structure for processing fuzzy logic inferences by organizing membership functions and related operands to facilitate checking the presence in the computer structure for a fuzzy logic inference value that is redundant to a new value and if such checking does not return an affirmative result, then such new value is appropriately stored.

The closest prior art (Lin, IEEE 0-7803-5731-0/99) teaches a dynamic-link (pointer) rule base between the original rule base and the inference engine and checks rules based on activity for inclusion in the interference determination. Lin does not teach a method of preventing redundancy in the original rule base itself related to new values. The applicants claimed invention provides the opportunity to reduce storage and improve inference execution time.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
